Name: _____

Class: 10th Section: _____

Subject: Social Science Date: _____

Chapter/Topic: Resource & Development

Delhi Public School
Gurugram I Sector 67A
Nurturing the Whole Child

Section A: MCQs (1×5 = 5 marks)

1. Which one of the following is a non-renewable resource?
   (a) Solar energy
   (b) Wind energy
   (c) Coal
   (d) Water

2. Resources which are surveyed and their quality and quantity have been determined are called:
   (a) Potential resources
   (b) Developed resources
   (c) Stock
   (d) Reserves

3. Which type of soil is found in the Deccan Plateau?
   (a) Alluvial soil
   (b) Black soil
   (c) Red soil
   (d) Laterite soil

4. Land degradation in Punjab is mainly caused by:
   (a) Overgrazing
   (b) Deforestation
   (c) Over-irrigation
   (d) Mining

5. Which of the following is not a factor of resource development?
   (a) Technology
   (b) Human resources
   (c) Population
   (d) Rainfall

Section B: Very Short Answer (2×5 = 10 marks)

6. Define resource planning.

7. What is sustainable development?

8. What are abiotic resources?

9. What is land degradation?
10. Name any two steps involved in resource planning.

Section C: Short Answer (3×4 = 12 marks)

11. Explain classification of resources on the basis of ownership. *(PYQ type)*
12. Mention any three causes of land degradation. *(PYQ)*
13. Explain any three features of black soil. *(PYQ)*
14. What are the three stages of resource planning in India? *(PYQ)*

Section D: Long Answer (5×3 = 15 marks)

15. Explain different types of soils found in India along with their characteristics. *(PYQ)*
16. "Indiscriminate use of resources has led to global ecological crises." Justify the statement with examples. *(PYQ)*
17. Suggest measures to control land degradation in India. *(PYQ)*

Section E: Case-Based Questions (4 marks)

18. Read the passage and answer the questions:
    "Resources are vital for any developmental activity. But irrational consumption and over-utilisation of resources may lead to socio-economic and environmental problems."

(a) Why are resources important for development?
(b) What problems are caused by overuse of resources?
(c) Suggest one method for sustainable use of resources.

Section F: Map Work (5 marks)

19. On the outline map of India, locate and label:

(a) One area of **Alluvial Soil**
(b) One area of **Black Soil**
(c) One area affected by **land degradation due to mining**
(d) One state with **laterite soil**
(e) One region with **forest land use**
